

Other Person 1

I wish to object to the Premise Licence Application recently made to yourselves for the proposed Premier Inn at Keswick.

My reasons are:

- My objection is for Non Resident alcohol sales, especially to the late hours applied for. My reasoning is that the proposed hotel is in a relatively quiet area of town in a mainly residential neighbourhood. The late hours suggested would encourage late night drinkers to migrate there as other pubs in the town closed at their earlier licence allowed hours. There is also a strong argument that Keswick already has enough licence premises to cater for demand, with these premises much better located around the town centre with the effects consumption of alcohol may have.

Other Person 2

I am writing to object to the licencing for the sale alcohol at Whitbread's Premier Inn, which is proposed to be built on High Hill.

My reasons for this are as follow:

- The street has a high elderly population. These individuals will find late night disturbances from the drunk and disorderly intimidating.
- Secondly it is in very close proximity to Keswick Secondary School, and will prove unpleasant for the students walking home, to be disturbed by customers of the Inn, which are well into a day drinking session.
- Thirdly it is positioned at the side of a road which gets a high volume of traffic and is also opposite the river Greta. Both could prove to be hazards to the inebriated.
- And finally, I realise it does not come under the criteria for objection, but the bar will take business away from local pubs and restaurants. All of which struggle for trade in the winter months. And will struggle to compete with the low prices of a capitalist giant like Whitbread.

Thank you for your time reading my letter. Please consider my points.
