

Agreed Conditions- Environmental Health

All recommendations as stated in the Noise Assessment Report Ref RSA 325/2020 Version 3 shall be undertaken and a Noise Management Plan drawn up and followed:

This includes the requirement that an electronic sound level limiter with a fine tonal adjustment shall be fitted and operational to the amplified PA system at the location and set at an absolute limit of 88dB LAeq60 sec.

The limiter shall not be readjusted and/ or the associated electrical supply bypassed by any performing musicians and/or DJ.

The loudspeakers and / or stage shall be orientated so that they face in an Easterly direction.

The licence holder or their representative shall conduct regular assessments of the noise coming from the premises on every occasion the premises are used for regulated entertainment and shall take steps to reduce the level of noise where it is likely to cause a disturbance to local residents. A written record shall be made of those assessments in a log book kept for that purpose and shall include the time and date of the checks, the person making them and the results including any remedial action.
