

1. From Councillor G Kemp

Councillor G Kemp requested receipt of full invoices and costs for all bin repairs from the contractor, full invoices and costs for all bin repairs from Allerdale Waste Services and asked for assurance that all costs incurred by the Council regarding bin repairs are included in the legal dispute with MGB.

Response from Councillor J Lister

The Council has reported all its expenditure on Bin Repairs and Bin Replacements through the Quarterly Finance reports to Executive and in the published Statement of Accounts for 2020/21.

During the last financial year, the adverse variances reported led to action being taken to address these variances, both through the Revised Budget and through the development and approval of the business case for the service to be undertaken by AWS Ltd.

In addition – the Council continues to publish on its website details of all its monthly spending, and so this information is all available publicly.

The Council will be seeking compensation for the losses experienced by the Council through the on-going contractual discussions
